Oracle Rdb & Other Training

JCC Consulting, Inc.

Partnerships

- Oracle asked JCC to take over Rdb training.
- JCC asks you to work with us to make Rdb training successful.
- Why?
  - The Rdb community is
    - Dispersed worldwide
    - Comparatively small
    - Exceptionally knowledgeable – requiring advanced training
  - JCC is
    - Experienced
    - Dedicated
    - Flexible
  - Training
    - Works best when people can meet together to share ideas, labs, …
    - Matching location, participants, and topics requires dedication.

JCC Consulting, Inc.

In case you don't know us, let us introduce ourselves.

- JCC has been doing consulting, training, research, and software development since 1984.

- JCC has often worked with Oracle, HP, and others to provide services to customers.

- Rdb Engineering has often recommended JCC for customers with particularly challenging issues.

- Oracle recognizes JCC for training for Rdb.

- JCC is dedicated to making Rdb training work.

JCC Training Locations

JCC Training Style

- We find it natural to couple technology transfer with everything that we do.
- We are also employing many other technologies.
  - We like to place Rdb within the complex context for complete system architectures that are impacting most shops, today.
  - We are expanding our seminar materials to reflect our experiences.
- JCC labs provide immediate experience while information is fresh and guidance is present.
- JCC seminars invite questions and discussion. We can, and do, tailor seminars to meet specific needs.
- JCC seminar groups are sized for good interaction.

What We Offer – Topics

- General database expertise
- Oracle Rdb
  - Database administration
  - Query Tuning and Locking
  - Physical DB Design
  - Internals
- Open VMS
- Workshops on our own tools
- Related products

What We Offer – Styles

- Prepared courses
  - Continually updated
  - http://www.jcc.com/SeminarListings.htm
- Complete immersion
  - By special request
  - Generally for experienced DBAs new to Rdb and VMS
- Tailored courses
  - Generally beginning with prepared materials
  - Sometimes using client's own test DBs and issues for labs
- Mentoring
  - Generally while addressing a consulting challenge

What We Offer – Venues

- Our training facility in Granville, Ohio
  - When enough interest is expressed, we choose a date.
  - Granville is a delightful, low-cost village.
- On sites
  - Client supplies the venue and lab space.
  - Provides opportunity for tailoring.
- At Forums
  - Four-day Query Tuning seminar in Brussels
  - Two-day selection of DBA Topics in Reading
  - LogMiner Loader workshop Brussels, Munich, Reading
- At sponsored events
  - Similar to on-sites
  - Additional participants beyond the client's personnel

6/2/2010

Enrollment

- JCC will require the minimum number necessary to ensure a good seminar. The minimum required will depend upon the background of the participants and could be as low as three.

- JCC prefers to limit maximum enrollment to seven to ten to ensure beneficial interaction and discussion.

What We Do Not Do

- JCC does not offer a glossy brochure of offerings.
- JCC does not cancel seminars due to what others consider low enrollment.
- JCC does not expect participants to share equipment.
- JCC does not cram seminars so full of participants that you cannot have your questions answered.
- JCC does not have someone lead a seminar who does not have *extensive* experience with the issues discussed.

Instead, we ask YOU to work with us to provide the training that YOU need.

Schedule

Where	When	What
Brussels	26 – 29 Apr	Query Tuning & Locking (4 days)
Brussels	30 Apr	JCC LogMiner Loader Workshop (1 day)

Nashua	Sep	JCC LogMiner Loader Workshop (1 day)
Sydney	??	??
Other	??	??

JCC Seminar Facility

- Public offering seminars are, generally, held in Granville, Ohio, USA.
  - Easy air access attracts students from outside the US
  - Low cost hotels and diverse eating establishments
  - Excellent computing/lab facilities
  - Pleasant surroundings
  - However, seldom viewed as a "luxury vacation spot that couldn't possibly be the site of something serious." ☺
- Public offering seminars have the advantage of including people with other backgrounds and questions.

On Sites

- If you have five people to train, an on-site is cost effective.
- On-sites can be tailored to your specific needs.
  - Want to train an Oracle DBA in Rdb?
  - Want to train a new hire in everything?
  - Want a refresher for an experienced team?
  - Having particular sorts of locking difficulties?
- On-sites are often coupled with other JCC support.
- On-sites can use (a copy of) YOUR database for labs in tuning and database administration.
- On-sites can provide an effective forum for discussion and resolution of YOUR specific issues.
- On-sites can meet YOUR schedule.

JCC Instructors

- JCC instructors
  - Are Rdb Practitioners.
  - Have Rdb experience since *before* Version 1.
  - Have practical experience doing Rdb *AND* teaching Rdb.
- Tuning and DBA course instructors
  - Have "hands on" experience at diverse sites with both "big" and "little" databases and, possibly, every blend of issues.
  - Have tuned databases to some of the most demanding criteria on the planet.
  - Are OpenVMS savvy.

# What do we need from you?

- Two-stage registration
  - Tell us the topics you need.
  - Register when we get enough interest to offer an on-demand seminar.
  - Talk with us NOW and whenever your needs change.
- Travel
- Assemble a group with similar needs
- Ideas
